ABOUT

Senior Full Stack Developer and Solutions Architect with a penchant for minimalistic design and optimizations. I have hands-on experience in developing applications using several javascript frameworks, managing and optimizing backend infrastructure including deployment, scalability, performance and efficiency.

EXPERIENCE

@TEKIE

- **SENIOR FULL STACK DEVELOPER**
  June 2022- Present

- **FULL STACK DEVELOPER**
  June 2021- June 2022

- **FRONTEND DEVELOPER INTERN**
  Feb 2021- June 2021

▷ Building user facing modules for MVP product, a Progressive Web App based on Reactjs and a Desktop Application using Electron.js
▷ Developing API's, Managing and optimizing backend architecture for enhanced scalability and performance utilizing Nodejs and GraphQL.
▷ Integration of different 3rd party services such as Sentry, Elastic Search and GA/GTM to improve application performance.
▷ Managing and optimizing infrastructure based on Kubernetes, Redis, MongoDB, PostgreSQL, Azure Services and AWS Services such as EC2, EKS, ECR, S3 and CloudFront.
▷ Built supporting NPM libraries for MVP product, mongodb-aggregation-builder, tekie-content-editor, tekie-blockly
▷ Interacting and engaging in discussions with stakeholders from various departments to determine and deliver optimal tech solutions aligned with business requirements.
▷ Leading a team of 7 in spearheading the development and seamless migration of an product suite

FRONTEND DEVELOPER INTERN @INVIDEO

3rd June - 19th July 2019 // Mumbai, MH // @Experience Letter

▷ Creating new user facing modules for MVP product based on Angular 7.
▷ Converting designs from InVision into pixel-perfect responsive screens.
▷ Helped in fixing cross-browser inconsistencies in the interface.

PROJECTS

mongodb-aggregation-builder

NPM: mongodb-aggregation-builder
MongoDB Aggregation Pipeline constructor.

Tekie-blockly NPM Library

@npmjs.com/package/tekie-blockly
Customised Blockly Framework

Flashify

https://github.com/smithg09/Flashify
Flashcard Mobile App using React Native

Tekie-content-editor NPM Library

npmjs.com/package/tekie-content-editor
Web based WYSIWYG editor library for React.

Covid19 Tracker

https://covid19.smithgajjar.dev/
ProgressiveWebApp for tracking COVID19

GraphQL Nodejs Backend starter

Repo : nx-node-apollo-grahql-mongo
Built using Typescript/MongoDB/GraphQL.
