ABOUT

Full Stack Developer and Solutions Architect with a penchant for minimalistic design. I have hands-on experience in developing web applications using several javascript frameworks, managing & optimizing backend infrastructure including deployment, scalability, performance and efficiency.

EXPERIENCE

@TEKIE

- **FULL STACK DEVELOPER**
  June 2021- Present // Remote

- **FRONTEND DEVELOPER INTERN**
  Feb 2021- June 2021 // Remote

▷ Building user facing modules for MVP product and a Progressive Web App based on Reactjs.
▷ Building API's and optimizing backend infrastructure to improve scalability and performace based on Nodejs and GraphQL.
▷ Managing and optimizing infrastructure based on Kubernetes, Redis, MongoDB and AWS Services such as EC2, EKS, ECR, S3 and CloudFront.
▷ Built supporting NPM libraries for MVP product, mongodb-aggregation-builder, tekie-content-editor, tekie-blockly

FRONTEND DEVELOPER INTERN @INVIDEO

3rd June - 19th July 2019 // Mumbai, MH // @Experience Letter
▷ Creating new user facing modules for MVP product based on Angular 7.
▷ Converting designs from InVision into pixel-perfect responsive screens.
▷ Helped in fixing cross-browser inconsistencies in the interface.

PROJECTS

mongodb-aggregation-builder
NPM: mongodb-aggregation-builder
MongoDB Aggregation Pipeline constructor.

Tekie-content-editor NPM Library
npmjs.com/package/tekie-content-editor
Web based WYSIWYG editor library for React.

Easy Event Webapp
Repo: easyevent-graphql
Event booking app using React & GraphQL

Covid19 Tracker
https://covid19.smithgajjar.dev/
ProgressiveWebApp for tracking COVID19

Flashify
https://github.com/smithg09/Flashify
Flashcard Mobile App using React Native

GraphQL Nodejs Backend starter
Repo : nx-node-apollo-grahql-mongo
Built using Typescript/MongoDB/GraphQL.

OTHER PROJECTS

▷ Serverless AWS Node API @github.com/smithg09/serverless-node-api
▷ Tekie-blockly NPM Library @npmjs.com/package/tekie-blockly
▷ A REST API developed using Deno @github.com/smithg09/Deno_REST_API
▷ React Redux Laravel Blog Application @laravel-react-mysql-blog-starter
